|----------|---------------------------------------------------------|-----------|
| <b>1</b> | <b>Introduction</b>                                     | <b>1</b>  |
| 1.1      | Motivation of the Thesis                                | 1         |
| 1.2      | Research Questions                                      | 10        |
| 1.3      | Guideline of the Research Methodology                   | 11        |
| 1.4      | Thesis Structure According to the Research Questions    | 13        |
| <b>2</b> | <b>Systematic Literature Review</b>                     | <b>15</b> |
| 2.1      | Logical Arrangement of the Chapter                      | 15        |
| 2.2      | Introduction                                            | 17        |
| 2.3      | Research Questions & Methodology                        | 19        |
| 2.4      | Bibliometrics Analysis                                  | 21        |
| 2.4.1    | Descriptive Analysis and Classification of Papers       | 21        |
| 2.4.2    | Analysis of Papers on Freight Network Design            | 23        |
| 2.4.3    | Analysis of Papers on Urban Distribution<br>Innovations | 26        |
| 2.4.4    | Cross-relevance Analysis of the Topics                  | 26        |
| 2.5      | Main Research Gaps and Future Research Framework        | 33        |
| 2.5.1    | Main Research Gaps                                      | 33        |
| 2.5.2    | Future Research Framework                               | 34        |
| 2.6      | Conclusion of This Chapter                              | 35        |
| <b>3</b> | <b>Theoretical Framework of Future SUFT</b>             | <b>37</b> |
| 3.1      | Logical Arrangement of the Chapter                      | 37        |
| 3.2      | Introduction                                            | 39        |
| 3.3      | Research Questions & Methodology                        | 42        |
| 3.4      | Literature Review of Foresight Research                 | 43        |
| 3.4.1    | Descriptive Analysis of Papers                          | 44        |

|          |                                                                                       |            |
|----------|---------------------------------------------------------------------------------------|------------|
| 3.4.2    | Analysis of Papers on Foresight Research .....                                        | 45         |
| 3.4.3    | Main Research Methodologies Applied in the Article<br>Corpus .....                    | 46         |
| 3.5      | Exogenous & Endogenous Trends of SUFT .....                                           | 53         |
| 3.5.1    | Exogenous Trends: Urban Spatial Development .....                                     | 54         |
| 3.5.2    | Endogenous Trends: Urban Distribution Innovations ....                                | 57         |
| 3.6      | Appropriate Methodology Selection .....                                               | 59         |
| 3.6.1    | Fundamental Elements of Foresight Research<br>Framework .....                         | 60         |
| 3.6.2    | Method Selection of Foresight Research on Future<br>Sustainable Urban Logistics ..... | 61         |
| 3.6.3    | The Feasibility of Method Mix .....                                                   | 66         |
| 3.7      | Theoretical Research Framework of Future SUFT .....                                   | 67         |
| 3.8      | The Sustainability of Future SUFT .....                                               | 71         |
| 3.9      | Conclusion of This Chapter .....                                                      | 72         |
| <b>4</b> | <b>Future Trends of SUFT .....</b>                                                    | <b>75</b>  |
| 4.1      | Logical Arrangement of the Chapter .....                                              | 75         |
| 4.2      | Introduction .....                                                                    | 77         |
| 4.3      | Research Question and Methodology .....                                               | 79         |
| 4.4      | Literature Review of Distribution Innovations .....                                   | 81         |
| 4.5      | Implementation Status Analysis of Distribution Innovations ....                       | 87         |
| 4.5.1    | Definition of Implementation Status .....                                             | 87         |
| 4.5.2    | Analysis of Implementation Status .....                                               | 90         |
| 4.6      | Application Restriction and Scope of Distribution<br>Innovations .....                | 95         |
| 4.6.1    | Applied Restriction of Distribution Innovations .....                                 | 95         |
| 4.6.2    | Sustainable Inner-Urban Intermodal Transportation ....                                | 99         |
| 4.7      | Conclusions of This Chapter .....                                                     | 104        |
| <b>5</b> | <b>Future Network Design of SUFT .....</b>                                            | <b>105</b> |
| 5.1      | Logical Arrangement of the Chapter .....                                              | 105        |
| 5.2      | Introduction .....                                                                    | 107        |
| 5.3      | Research Questions & Methodology .....                                                | 108        |
| 5.4      | Review of Critical Words .....                                                        | 109        |
| 5.4.1    | Conventional Urban Freight Network .....                                              | 109        |
| 5.4.2    | Urban Distribution Innovations .....                                                  | 112        |
| 5.5      | Future Trends on Large/Megacities and Impacts Analysis ....                           | 114        |
| 5.5.1    | Future Trends on Large/Megacities .....                                               | 115        |
| 5.5.2    | Impacts Analysis on Urban Freight Network .....                                       | 118        |
