

# Contents

<b>I</b>	<b>Introduction</b>	<b>1</b>
<b>II</b>	<b>Fundamentals</b>	<b>5</b>
1	Physics of Semiconductors . . . . .	5
1.1	Semiconductor in the Dark . . . . .	7
1.2	Doping . . . . .	10
1.3	Semiconductor under Illumination . . . . .	11
1.4	Generation, Recombination and Transport of Charge Carriers . . . . .	13
1.4.1	Generation . . . . .	14
1.4.2	Recombination . . . . .	15
1.4.3	Transport . . . . .	16
1.5	Selectivity and Contacts . . . . .	18
1.5.1	Surface Recombination . . . . .	20
2	Fundamentals of Photovoltaics and Organic Solar Cells . . . . .	22
2.1	Current-Voltage-Curve and Figures of Merit . . . . .	23
2.2	Organic Semiconductors and Conjugated $\pi$ -Electron Systems . . . . .	26
2.3	Generation and Recombination in Organic Donor-Acceptor Systems . . . . .	28
2.3.1	Exciton . . . . .	28
2.3.2	Generation of Free Charges in a Donor-Acceptor System . . . . .	30
2.3.3	The Charge Transfer State in Donor-Acceptor Systems . . . . .	31
2.3.4	Recombination in Organic Donor-Acceptor Systems . . . . .	36
2.4	Transport in Organic Materials . . . . .	37
2.5	The Organic Bulk-Heterojunction Solar Cell . . . . .	38

<b>III Materials and Methods</b>	<b>39</b>
3    Device Preparation . . . . .	39
4    Materials . . . . .	42
5    Characterization Methods . . . . .	44
5.1    Current-Voltage Measurement . . . . .	44
5.2    Illumination and Temperature Dependent Current-Voltage Measurements . . . . .	45
5.3    Bias Amplified Charge Extraction . . . . .	47
5.4    Luminescence Spectroscopy . . . . .	49
5.5    Reflection and Transmission Measurements . . . . .	51
6    Numerical Simulation Methods . . . . .	52
6.1    Drift-Diffusion Simulations . . . . .	52
6.1.1    The Effective Semiconductor Model . . . . .	53
6.2    Optical Scattering-Matrix Simulations . . . . .	54
<b>IV Results and Discussion</b>	<b>57</b>
7    Charge Extraction from Organic Solar Cells . . . . .	57
7.1    Capacitance of Organic Solar Cells . . . . .	58
7.2    Excess Carrier Density and Capacitive Correction . . . . .	61
7.3    Capacitive Currents under Open-Circuit Conditions . . . . .	64
7.4    Determination of the Bulk Recombination Coefficient . . . . .	69
7.5    Summary of Charge Extraction Experiments . . . . .	70
8    Recombination Losses due to Poor Selectivity of Contacts . . . . .	71
8.1    Open-Circuit Voltage Loss due to Recombination at Electrodes . . . . .	72
8.2    Spectroscopic Investigation of Surface Recombination . . . . .	78
8.3    Impact of Charge Carrier Mobility on Surface Recombination . . . . .	87
8.4    Summary of the Investigation of Surface Recombination in OSC . . . . .	88
9    Illumination and Temperature Dependence of the Open-Circuit Voltage . . . . .	89
9.1    Determination of the Effective Band Gap . . . . .	90
9.2    Open-Circuit Voltage Saturation at Low Temperatures . . . . .	95
9.3    Comparison of $V_{OC}$ to the Effective and the Absorption Band Gap . . . . .	98
9.4    Summary of Illumination and Temperature Dependent Measurements . . . . .	100

10	Correction of Luminescence Spectra for Optical Out Coupling Effects . . . . .	101
10.1	Simulation of the Out Coupling of Luminescence from Organic Solar Cells . . . . .	101
10.2	Impact of Interference on Electroluminescence Spectra . . . . .	103
10.3	Correct Determination of Charge Transfer State Energy in Organic Solar Cells from Luminescence Spectra . . . . .	105
10.4	Summary of Out Coupling Effects in OSC . . . . .	112
<b>V</b>	<b>Summary</b>	<b>113</b>
	<b>Deutsche Zusammenfassung</b>	<b>118</b>
<b>Appendices</b>		<b>123</b>
A	Sub- and Superscripts, Symbols, Constants and Abbreviations . . . . .	124
B	Supporting Figures . . . . .	134
C	Supporting Tables . . . . .	138
D	Supporting Information . . . . .	140
E	Publications . . . . .	143
