

Contents

| | |
|--|----|
| 1. Introduction | 15 |
| 2. Expert Modelling in Sports | 25 |
| 2.1 The environment of the System of Athlete Preparation..... | 28 |
| 2.2 Characteristics of the System of Athlete Preparation (AP)..... | 29 |
| 2.3 Structure of the System of Athlete Preparation | 31 |
| 2.4 The state of the system of athlete preparation..... | 32 |
| 2.5 Functioning of the System of Athlete Preparation..... | 33 |
| 2.6 Behaviour of the System of Athlete Preparation | 34 |
| 2.7 Management of the system of athlete preparation | 35 |
| 2.8 Management of the System of Athlete Preparation with feedback information | 36 |
| 2.9 Management of the System of Athlete Preparation with prospective information | 36 |
| 2.10 Adaptive management of the system of athlete preparation | 37 |
| 2.11 Complex, targeted management of the system of athlete preparation | 37 |
| 2.12 Hierarchical management of the system of athlete preparation..... | 37 |
| 3. Success in sports..... | 41 |
| 3.1 Competitive success in tennis | 42 |
| 3.2 Potential Success in tennis | 45 |
| 3.2.1 The model of potential success of tennis players..... | 45 |
| 3.2.2 A more precise definition of the importance of the discussed dimensions for the success of tennis players | 48 |
| 3.2.2.1 Morphological characteristics | 49 |
| 3.2.2.2 Motor Abilities | 53 |
| 3.2.2.2.1 Speed | 57 |
| 3.2.2.2.2 Agility..... | 62 |
| 3.2.2.2.3 Movement patterns | 65 |
| 3.2.2.2.4 Coordination..... | 69 |
| 3.2.2.2.5 Balance | 75 |
| 3.2.2.2.6 Precision | 78 |
| 3.2.2.2.7 Flexibility | 78 |

| | |
|--|-----|
| 3.2.2.2.8 Power | 83 |
| 3.2.2.2.9 Strength | 87 |
| 3.2.2.2.10 Power | 88 |
| 3.2.2.2.11 Endurance | 91 |
| 3.2.2.2.12 Assessment and testing of tennis players | 97 |
| 4. Measurement results of tennis players from 1992 to 2016 | 101 |
| 4.1 Results of descriptive statistics for variables included in the expert tree..... | 105 |
| 4.2 The influence of selected variables on competitive success of tennis players | 113 |
| 4.2.1 Movement functionality | 114 |
| 4.2.2 Morphological characteristics | 115 |
| 4.2.3 Body composition | 115 |
| 4.2.4 Motor dimensions..... | 117 |
| 4.2.5 Fast and explosive leg power | 118 |
| 4.2.6 Training characteristics | 118 |
| 4.3 Designing a reduced expert model of potential success for young tennis players | 119 |
| 4.3.1 Model for potential success of young tennis players for movement functionality, morphological characteristics and motor abilities, endurance, and body composition. | 119 |
| 5. Conclusion | 127 |
| 6. Literature | 129 |
| 7. Measurement procedure protocols | 147 |
| 7.1 Training characteristics | 147 |
| 7.2 Morphological characteristics | 152 |
| 7.3 Movement functionality | 152 |
| 7.4 Motor efficiency | 154 |
| 7.5 Fast and explosive leg power | 162 |
| 7.6 Dynamometric force..... | 163 |
| 7.7 Dynamic balance | 163 |
| 7.8 Running Endurance | 164 |
| 7.9 Body Composition..... | 164 |
| 8. Index | 167 |
