SpringerBriefs in Law

**SpringerBriefs in Law and Regulation
& Innovation**

SpringerBriefs present concise summaries of cutting-edge research and practical applications across a wide spectrum of fields. Featuring compact volumes of 50 to 125 pages, the series covers a range of content from professional to academic. Typical topics might include:

- A timely report of state-of-the art analytical techniques
- A bridge between new research results, as published in journal articles, and a contextual literature review
- A snapshot of a hot or emerging topic
- A presentation of core concepts that students must understand in order to make independent contributions

SpringerBriefs in Law showcase emerging theory, empirical research, and practical application in Law from a global author community. SpringerBriefs are characterized by fast, global electronic dissemination, standard publishing contracts, standardized manuscript preparation and formatting guidelines, and expedited production schedules.

SpringerBriefs in Law and Regulation & Innovation present summaries of cutting-edge research and practical applications across the wide spectrum of regulatory law. Regulation has established itself as an important component of the legal system. It aims to achieve the common good in the interaction between and among administration and private individuals and occurs alongside the other central (administrative) legal functions of limiting state power to protect freedom, averting dangers, regulating the direct provision of state services and the general provision of legal rules for social development. SpringerBriefs in Law and Regulation & Innovation are dedicated to the understanding, systematic recording and dogmatic and empirical processing of such regulatory regimes. It is open for basic questions, central elements and new developments in the regulatory law. The focus is on legal regimes to secure results that promote the common good from and through economic competition, such as those found in network economies, data law, and increasingly in the food as well as in the health sector etc. Featuring compact volumes of 50 to 125 pages, the series covers a range of content from mainly professionals but also academics.

Acknowledgments

The funding for this report was generously provided by the Adalbert-Raps-Foundation, and it was collaboratively developed by the Chair of Food Law within the Faculty of Life Sciences: Food, Nutrition, and Health (Campus Kulmbach), together with the Research Center for German and European Food Law (Forschungsstelle für Deutsches und Europäisches Lebensmittelrecht) at the University of Bayreuth. Additionally, we want to thank David Stöttner for helping us with the finalisation of this project.

Contents

1	Executive Summary	1
2	Background	3
2.1	Problem Description and Aim of the Project	4
2.2	Methodology	5
2.2.1	Doctrinal Legal Research	5
2.2.2	Empirical Legal Research	6
2.2.3	Limitations	6
2.2.4	Interview Results: Producer Expectations	7
2.3	Legal Framework	8
2.4	Definitions	10
	References	13
3	Precision Fermentation and GMMs	15
	References	17
4	Pre-market Authorisation	19
4.1	Intro: Applicable Legal Frameworks	19
4.2	Using Microorganisms for Food Production	20
4.2.1	GMMs and Their Contained Use	21
4.2.2	Qualified Presumption of Safety	23
4.3	Placing Food on the EU Market	24
4.3.1	Product Categorisation	25
	4.3.1.1 Precision Fermentation Employing GMMs	26
	4.3.1.2 Precision Fermentation Without Employment of GMMs	31
4.3.2	Pre-market Authorisation Under the GMFR	32
4.3.3	Pre-market Authorisation Under the NFR	35
	References	37
5	Labelling: General Product Naming Requirements	41
5.1	Difference to Plant-Based Products	44
5.2	The TofuTown Case	44

5.3	Naming Requirements for Precision Fermentation Products.	46
5.4	Vegan	51
5.5	Organic Certification	53
5.6	Clean Labels.	55
5.7	Claims	56
5.7.1	Health and Nutrition Claims	56
5.7.2	Designation of Origin	58
	References.	60
6	Comparative Analysis.	63
6.1	Comparisons with Other PF-Products	63
6.2	Comparisons with Other Countries	66

	Annex: Overview Interviews	73

About the Authors

Federica Ronchetti works as food law expert at the Competence center for the Food Chain of the Austrian Agency for Health and Food Safety (AGES) since September 2023. She contributed to this book while she was a scientific employee at the Chair of Food Law, University of Bayreuth, Campus Kulmbach and the Research Center for Food law of the University of Bayreuth since 2020, where she focused on interdisciplinary studies in the area of food law, in particular on the regulation of food innovations in the EU. She holds a BSc in Nutritional Sciences from the University of Vienna, a Dipl.-Ing. in Safety in the food chain from the University of Natural Resources and Life Sciences, Vienna and an LL.M. in Food law from Luiss Guido Carli, Rome. In 2022, she co-founded the “Bayreuth-Kulmbach Alt Protein Project” of the Good Food Institute.

Laura Springer works as scientific employee at the Chair of Food Law, University of Bayreuth, Campus Kulmbach since 2021 with a focus on Food Law, Food Waste Law and European Law. She holds the German “Erstes Staatsexamen”, a law degree which she completed in Bayreuth in 2021.

Kai P. Purnhagen is Full Professor and Director of the Research Center for German and European Food Law at the University of Bayreuth. He works in the areas of European Union Law, International Economic Law and the interdisciplinary and comparative analysis of law, with emphasis on the food market. He studied Law, Political Science, Economics, Philosophy and Sociology at the Justus-Liebig-University Gießen and at the Fernuniversity Hagen, he continued as LL.M. - Fellow at the University of Wisconsin-Madison, before he was admitted to the PhD programme of the European University Institute in Florence, he undertook a Post-doc at the University of Amsterdam and at the Ludwig-Maximilians-University Munich, before he was appointed Assistant and Associate Professor in Law at Wageningen University. He held visiting or short-term appointments at the University of Lucerne, the London School of Economics and Political Science, the University of Wisconsin-Madison, and the Justus-Liebig-University Giessen.
