I can just grab a book and use it at my computer, lesson by lesson. And I understand the material! You really know the way I think and learn. Thanks so much!"

Stacey Han (Avondale, AZ)

Author's Acknowledgments

All books have text, of course, and I had fun supplying this book with its textual skeleton. However, this book's beauty (and it *is* beautiful, I'm sure you will agree) comes from Wiley's immensely talented group of illustrators, designers, and layout artists. They are all listed in the Credits section on the previous page, and I thank them for creating another gem. The text is important too, and the task of ensuring that what you read here is accurate, logically presented, and free of errors fell to an excellent group of editors that included project editor Jade Williams, copy editors Scott Tullis and Kim Heusel, and technical editor Lee Musick. Thanks to all of you for your exceptional competence and hard work. Thanks, as well, to acquisitions editor Jody Lefevere for asking me to write this book, and to Karen Hammond for taking many of the original photographs used in this book.
