Acknowledgments

If you think using the iPhone is a blast, you should try *writing* about it! I had so much fun poking and prodding the iPhone 4 to see just what it's capable of, that I'm worried my publisher won't pay me next time. (Kidding!) Adding to the fun were the great people at Wiley that I got to work with. They included Senior Acquisitions Editor Stephanie McComb, who was kind enough (or was it brave enough?) to ask me to write the book; Project Editor Cricket Krengel, whose unflappable calm under intense pressure is beyond admirable; and Technical Editor Thomas Myer, who made sure my instructions didn't zig when they were supposed to zag. Many heartfelt thanks to all of you for outstanding work on this project.
