# Acknowledgments

**Wiley Publishing, Inc.** gratefully acknowledges the contributions of these authors and contributing writers: Mark L. Chambers, Tony Bove, David D. Busch, Martin Doucette, David Kushner, Andy Rathbone, Cheryl Rhodes, Todd Stauffer, and Keith Underdahl.

We would like to thank Mark Chambers for editing this book, Kim Darosett and John Edwards for copy editing it, and Nicole Sholly for serving as project editor. Thanks as well go to Keith Underdahl for his technical edits, Joan Griffiths for her index, and Rich Tennant for the witty cartoons you will find in this book. Thanks are also due to the many page layout technicians, graphic artists, proofreaders, and others in Compositions Services who worked to bring this book to fruition.

**From Mark Chambers:** When I was asked by Wiley to take on this project, I had no idea of the truly epic proportions of a Gigabook — sure, I've written several books of 700 to 800 pages, but nothing had prepared me for the sheer number of chapters and the organization involved in this project. Without the help and support of a large number of folks, I would never have been able to meld together several *For Dummies* books into one comprehensive, cohesive whole! It's time I thank everyone involved.

As with all my books, I'd like to first thank my wife, Anne, and my children, Erin, Chelsea, and Rose, for their support and love — and for letting me follow my dream!

The Wiley Production team is the best in the business — hands down — and I applaud the work of project coordinator Adrienne Martinez. Again, the Composition Services team took the raw material I provided and prepared the beautifully-finished work of publishing art you hold in your hands. Thanks to each of the team members for yet another job well-done.

Next, I owe a debt of gratitude to my editorial manager, Kevin Kirschner, my copy editors, Kim Darosett and John Edwards, and my technical editor, Keith Underdahl. All of these folks worked together to check the technical accuracy of every word, investigate every silly acronym and straighten out my logical mishaps — ensuring that my work is the best it can be.

Finally, I send my appreciation across the pages to my acquisitions editor, Tiffany Franklin, and my project editor, Nicole Sholly — two wonderful, hard-working individuals who decided (yet again) to add me to their team! The two of them provided all the help and support any technology author could ask for . . . even with a book so large that I often wondered if any bookstore had a shelf that would be strong enough to bear all this weight. Thanks to both of you for yet another chance to put pen to paper — well, actually, fingers to keyboard!

## **Publisher's Acknowledgments**

We're proud of this book; please send us your comments through our online registration form located at [www.dummies.com/register/](http://www.dummies.com/register/).

Some of the people who helped bring this book to market include the following:

### ***Acquisitions, Editorial, and Media Development***

**Associate Project Editor:** Nicole Sholly

**Acquisitions Editor:** Tiffany Franklin

**Senior Copy Editor:** Kim Darosett

**Copy Editor:** John Edwards

**Technical Editor:** Keith Underdahl

**Editorial Manager:** Kevin Kirschner

**Media Development Manager:** Laura VanWinkle

**Media Development Supervisor:** Richard Graves

**Editorial Assistant:** Amanda Foxworth

**Cartoons:** Rich Tennant ([www.the5thwave.com](http://www.the5thwave.com))

### ***Composition***

**Project Coordinator:** Adrienne Martinez

**Layout and Graphics:** Andrea Dahl, Lauren Goddard,  
Denny Hager, Michael Kruzil, Lynsey Osborn,  
Jacque Roth

**Proofreaders:** Laura Albert, Kathy Simpson

**Indexer:** Joan Griffitts

<b><i>Index.....</i></b>	<b><i>895</i></b>

# Table of Contents

<b>Introduction .....</b>	<b>1</b>
What's in This Book, Anyway? .....	1
What Makes This Book Special .....	2
Information that's easy to find.....	2
A task-oriented approach.....	2
The author's opinion.....	3
A Greatest Hits Collection.....	3
Foolish Assumptions .....	3
Conventions Used in This Book .....	4
Icons Used in This Book.....	4
 <b>Book 1: Digital Photography .....</b>	<b>5</b>
 <b>Part I: Getting Ready for Digital Photography.....</b>	<b>7</b>
 <b>Chapter 1: Becoming a Digital Photography Maven .....</b>	<b>7</b>
Knowing What Equipment You Need.....	7
Minimum and Maximum Specs .....	9
Taking Great Digital Shots .....	10
Understand how your camera works .....	10
Know some photography fundamentals .....	10
Find out how to use an image editor .....	11
Master a scanner .....	11
Making Any Photo Digital.....	12
Printing Your Final Pictures .....	12
 <b>Chapter 2: Choosing the Right Camera .....</b>	<b>13</b>
Choosing a Camera Category .....	14
Evaluating Your Lens Requirements.....	14
Understanding How Lenses Work.....	16
Magnifications and focal lengths.....	17
Lens apertures .....	18
Focus range .....	20
Exposure controls .....	20
Choosing Your Resolution .....	23
Choosing Your View .....	25
LCD viewfinders.....	25
Optical viewfinders .....	26
Hybrid viewfinders.....	27
Viewfinders with vision correction .....	28
Considering Your Storage Options .....	28
No Flash in the Pan: Determining Your Lighting Needs .....	29
Checking Out Ease of Use .....	29
 <b>Chapter 3: Solving the Computer Side of the Digital Equation .....</b>	<b>31</b>
Hardware Wars Revisited.....	31
What Equipment Do You Need? .....	35
Determining how much memory you need.....	35
Choosing local storage .....	36

Archiving and backing up.....	37
Avoiding microprocessor no-brainers.....	40
Determining what's most important.....	40
Choosing pointing devices.....	42
<b>Chapter 4: Connecting the Camera and Computer .....</b>	<b>43</b>
Making the Connection between Camera and Computer .....	43
Getting wired up .....	44
Memory cards and disks .....	50
Transferring Images from Camera to Computer .....	55
Transferring pictures using camera utility software .....	55
Copying files to your hard drive.....	56
Importing images into image-editing software .....	58
<b>Chapter 5: Choosing a Printer and Scanner .....</b>	<b>61</b>
Why You Want Prints .....	61
Choosing a Printer for Digital Photography .....	62
Let somebody else do it .....	63
Laser printers .....	63
Ink-jet printers .....	63
Dye-sublimation printers.....	64
Other printers .....	64
Choosing a Scanner .....	64
Types of scanners .....	66
Scanner prices and features.....	66
What scanner features do you need?.....	68
Resolution mythconceptions.....	71
Color-depth confusion.....	72
<b>Chapter 6: Accessorizing Your Digital Camera .....</b>	<b>73</b>
Getting Support from Tripods .....	73
Types of tripods .....	76
Scrutinizing tripod features .....	76
Checking out tripod alternatives.....	79
Making Good Use of an Electronic Flash.....	79
Types of electronic flash units.....	80
What to look for in a photographic slave flash .....	83
Lighting/flash accessories.....	84
Choosing a Camera Bag.....	84
Acquiring Other Useful Devices .....	84
Filter holders.....	84
A second camera .....	85
Cleaning kits.....	85
Waterproof casings and housings .....	85
Filters .....	86
<b>Part II: Snap To! Shooting Great Pictures.....</b>	<b>87</b>
<b>Chapter 7: Understanding Photo Composition .....</b>	<b>87</b>
Photo Composition: The Big Picture .....	87
Visualizing a Concept for Your Picture.....	88
What do you want your image to say? .....	89
Where will it be used? .....	89
Who are you creating the image for? .....	90

Selecting a Center of Interest.....	90
Narrowing down your subject matter .....	90
Choosing one main subject.....	91
Using secondary subjects .....	93
Choosing an Orientation .....	93
Arranging Your Subjects .....	96
Choosing subject distance .....	96
Optimizing backgrounds .....	97
The Rule of Thirds .....	98
Placing important objects at imaginary junction points.....	99
When to break the rule .....	99
Some corollaries.....	100
Using Straight Lines and Curves .....	101
Balancing an Image .....	103
Framing an Image .....	104
<b>Chapter 8: Moving into Close-Up Photography .....</b>	<b>107</b>
What's Macro Photography? .....	107
Why Digital Macro Photography Is Cool .....	108
Picking a Place to Shoot .....	109
Setting Up Your Macro Studio .....	110
Background check.....	111
Visible means of support.....	113
Lighting equipment .....	114
Other equipment .....	116
Shooting Tips for Macro Photography.....	118
Setting up your subject and background .....	118
Setting up your camera .....	118
Lights, please .....	119
Ready . . . aim . . . ..	119
Fire!.....	121
<b>Chapter 9: Photographing People .....</b>	<b>123</b>
Capturing Satisfying Portraits .....	124
Shooting on Location or in the Studio.....	125
Setting Up an Informal Portrait Studio .....	127
Choosing Backgrounds.....	128
Selecting supports for lights, camera, and subjects.....	129
Basic lighting equipment.....	131
Professional studio lighting .....	134
Lighting gadgets .....	135
Lighting Basics .....	141
Using multiple light sources .....	141
Arranging a multiple-light setup.....	142
Basic Lighting Techniques .....	149
Advanced Lighting Techniques .....	149
Short lighting .....	150
Broad lighting .....	151
Butterfly lighting.....	151
Backlighting.....	153
Taking Your First Portraits.....	155
Shooting the Portrait .....	158
Posing your subjects.....	158
Arranging your lighting.....	161
Taking the picture .....	161
Advantages of Digital Cameras.....	162
