# **Multidimensional Decision Behavior in Air Transport**

# Table of Contents

<b>1</b>	<b>Introduction</b>	<b>12</b>
1.1	Aim and need to analyze transport decision behavior	12
1.2	The research object: Public transport with a focus on rail and aviation	14
1.2.1	Politics	18
1.2.2	Supply	21
1.2.3	Demand	23
1.3	Methodological approaches	25
1.4	Structure	28
<b>2</b>	<b>Beyond rational consumer decisions (choices)</b>	<b>29</b>
2.1	Fundamentals and theoretical background why irrational is not unreasonable	29
2.2	Judgment and decision making	35
2.3	Prospect theory as a basis for decision-making under risk	37
2.4	Theory of planned behavior	38
2.5	Information processing theory (bounded rationality)	38
2.6	Customer value theory	39
<b>3</b>	<b>Decision making behavior in Transport: A Synthesis</b>	<b>45</b>
<b>4</b>	<b>The concept of well-being</b>	<b>54</b>
4.1	Introduction into the concept of well-being	54
4.2	Well-being perspectives	55
4.2.1	Objective versus subjective well-being	55
4.2.2	Hedonic versus eudaimonic well-being	56
4.2.3	Consolidation	58
4.3	Well-being – a multidimensional construct and its effect on human motivation	59
<b>5</b>	<b>Well-being in travel and transportation research</b>	<b>62</b>
5.1	Well-being as perceived utility in travel choice making	62
5.2	Well-being as concept to measure travel satisfaction	63
5.3	Travelling and the effect on well-being	64
5.4	Results	64

<b>6</b>	<b>Well-being factors for the airline ticket purchasing process</b>	<b>67</b>
<b>7</b>	<b>References</b>	<b>71</b>
<b>8</b>	<b>Appendix 1: Academic foundation</b>	<b>88</b>
8.1	Authors contribution – explaining main customer and service factors in air transport	88
8.2	Purchasing a general ticket for public transport	90
8.3	Customer value drivers of railway customers: What drives value for railway passengers?	92
8.4	Customer value as a framework for analyzing customer services in the airline industry	94
8.5	The valuation of direct intercontinental flights as opposed to non-direct ones: Insights based on a hedonic approach	96
8.6	Importance of direct flight connections between Switzerland and the Far East: A Logistic Choice Model	98
8.7	A case study on Swiss travelers and their air travel preferences on transatlantic flights	100
8.8	The perception of time in air transport – what delay is accepted by air travelers?	101
8.9	Customer value factors of Very Light Jet air taxi passengers	104
8.10	Customer value of purchasable supplementary services: The case of a European full network carrier's economy class	105
8.11	The future of ancillary service fees in air travel – an exploratory investigation of budget air travelers	107
8.12	Attitudes of frequent flyers towards limited air connectivity	109
8.13	Financial, ecological and managerial impacts of Emission Trading Schemes: The case of Lufthansa	110
8.14	Passengers' attitudes towards environmental activities by airlines	116
8.15	Swiss regional airport network – identifying brokerage roles and simulating structural changes	118
8.16	Intangible regional effects of regional airports: A system analysis of Switzerland	121
8.17	New technologies – acceptance of self-service check-in	124
<b>9</b>	<b>Appendix 2: Practical Implications</b>	<b>127</b>
